### Product Details

#### 5t certification test water bag

The **5 ton certification test water bag** is also called **water weight heavy water bag** and **weight water bag**. **Test heavy water bag** can be used for crane lifting test, deck strength test, drilling well ship cantilever test and so on. It is more efficient and safe than traditional solid weight, and has lower detection cost.

In addition to the heavy weight of the traditional weight test and inconvenient transportation, the pvc coated fabric material of **test water bag** is light, the volume is small, and the transportation is convenient, besides it has advantages of environmental protection, energy saving and consumption reduction.
