

Aqueous Perforated Window Film Self-Adhesive

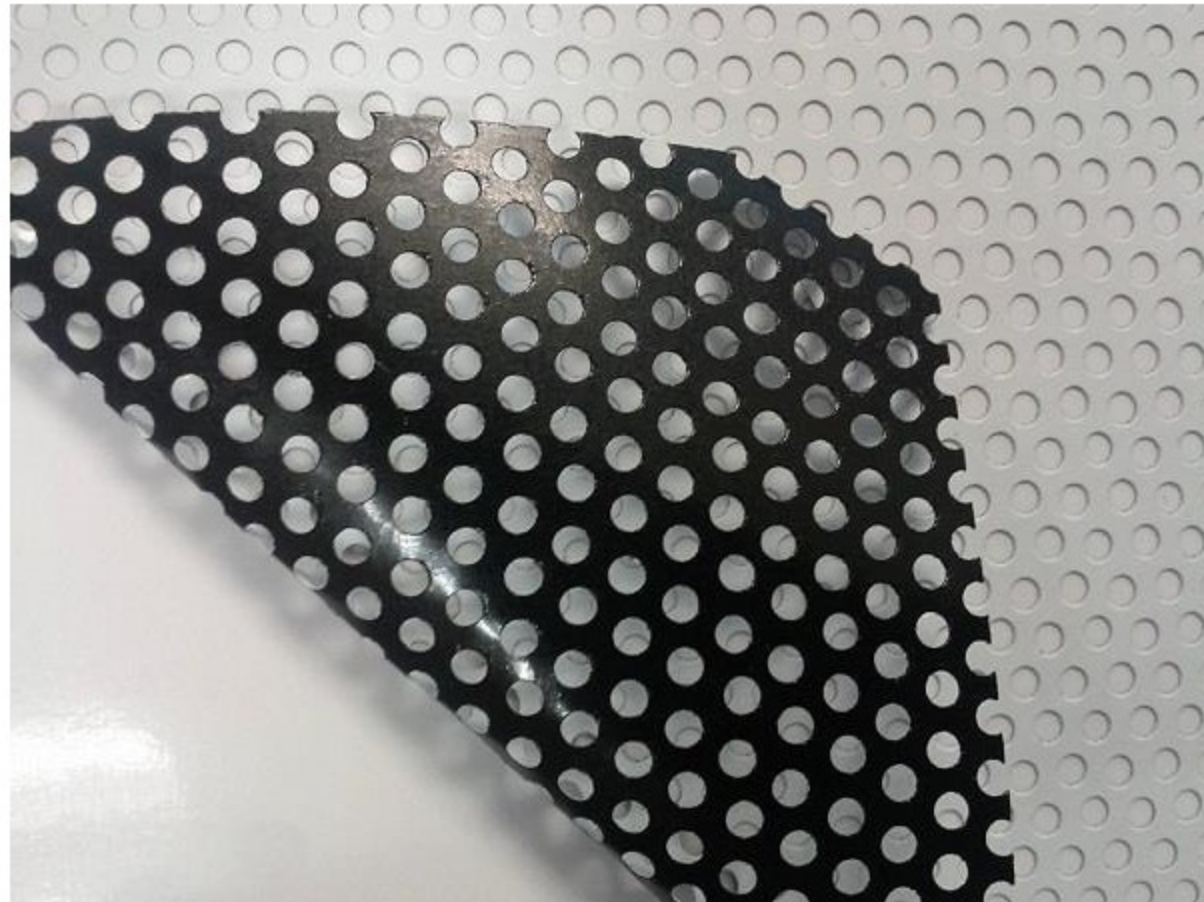

Aqueous Perforated Window Film is a bright white, 8mil, perforated, self-adhesive vinyl for see-through window graphics. When mounted in the window, the perforated graphics don't block the view of building occupants. The 70/30 ratio of vinyl to holes avoids print shrinkage and looks more solid to outside viewers.

Product Details

Aqueous Perforated Window Film is a bright white, 8mil, perforated, **self-adhesive vinyl** for see-through window graphics. When mounted in the window, the perforated graphics don't block the view of building occupants. The 70/30 ratio of vinyl to holes avoids print shrinkage and looks more solid to outside viewers.

Aqueous Perforated Window Film Self-Adhesive has a removable, solvent-based adhesive and a thicker-than-average paper liner for easy handling. The high-definition matte coating supports high ink densities for bright colors and bold text. This **window film** can be printed on multiple makes of printers that use aqueous pigment inks. Pressure-sensitive laminating films can help extend the life of the print beyond 6 months indoors and 1 year outdoors. Trust Freedom Paper to deliver innovative materials that enable you to do more with your wide-format inkjet printer.

Product Highlights:

- Bright-white, 8mil, perforated, matte, calendared vinyl with removable adhesive
- For see-through promotional graphics displayed in store and office windows
- Ratio of 70 percent vinyl to 30 percent holes aids stability and appearance
- Thicker paper liner makes it easy to feed the vinyl through the printer
- Removable adhesive simplifies installation and removes cleanly
- Adheres to outside of glass
