Product Details

multi function test water bags

Multi function test water bags is made of special **pvc tarpaulin coated material** which has the characteristics of safety, environmental protection and non-toxic materials. It can resist to low temperature, sea water, oil, acid alkali and so on. **Crane load test water weights** can also be used as storage container to keep liquids such as water, gasoline for a long time . It can be folded in transportation and greatly reduce the occupied space of empty bags.

Crane and davit test bags are made of high wave voltage, the width of welding is only 5cm, and the bag body is inserted with high strength fiber sling, so the safety of **water weight proof load testing** is fully guaranteed.

DERFLEX Main Product:

| Part Number | Specification |
|-------------|-------------------------------|
| DG1122 | 1000D*1000D, 20*20, 650gsm |
| DG1330 | 1000D*1000D, 30*30, 900gsm |
