	DW1110	Frontlit	1000D*1000D 9*9	450	1.02~5.00

Q&A:
Q: Can it be more smooth to be printed on UV print?
A: Yes, we can produce smooth fabric and processed with hot laminated.

Q: The regular products do not strong enough.
A: The tear strength and tensile strength mainly depends on the fabric, we can make it with high strength fabric.

Q: Can it be more light but we want to keep the strength?
A: Yes, the fabric would be the same, with one side PVC laminated.
