### Product Details

PVC door curtain, made of super clear PVC sheet, is widely used in Freezer , Cold storage, Ice factory, Warehouse industry, Marketing Center, Food factory , Feed mill, Chemical plant, system, Pharmaceutical factory, Electronic Factory, Machinery Factory, Welding plant, Fire works, Printing plant, Asepsis room, Computer room , Supermarket, fresh market, Restaurant, kitchen, etc

#### PVC tranparent door curtain advantages:

##### 1. Creat the best envirenment

PVC door curtain, to make the opening and closing of the portal, is easy to play the best effect of insulation, dust, insects, sound insulation, improve production awareness, increase operational efficiency. With good transparency, to prevent accidental collision of personnel vehicles, improve the safety of the plant, to create a functional operating environment

##### 2. Multifunctional compartment

PVC flex curtain, so that any factory or warehouse can be simple and rapid realization of multi function compartment, do not shrink the width of the door, do not take up space, the limited space in the factory library for the most effective configuration.

##### 3. Energy saving

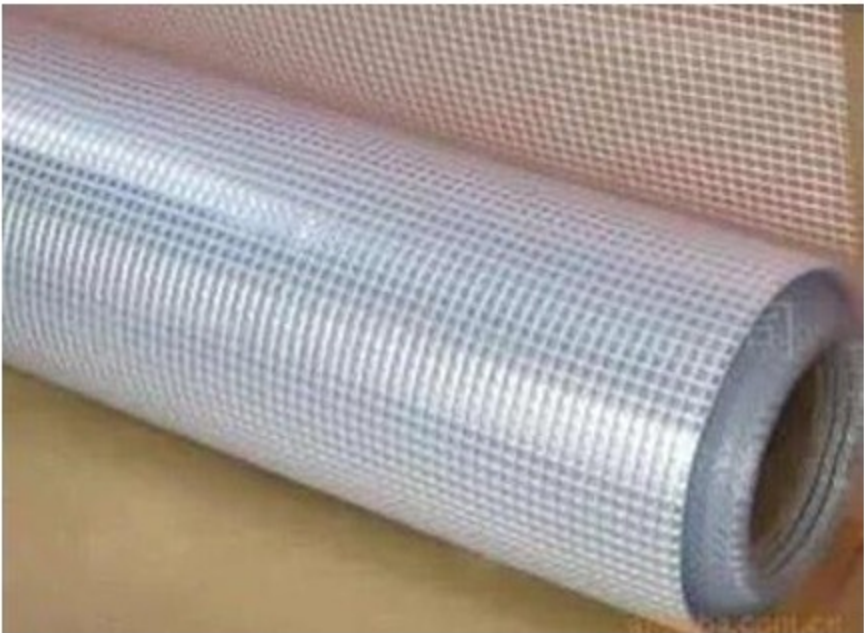

The PVC curtain, the portal open and close very quickly, and only open into and out of the body size, air conditioning heating loss to minimum, greatly improve the cooling greenhouse effect, reduce the refrigerator running hours, no power consumption, no noise, energy saving up to 50%

##### 4. Economical

PVC door curtain, according to the installation and disassembly are very simple, according to the existing structure, no need to rebuild can be set, low cost. Movable lifting method, durable, no maintenance and management costs, is the most economical and durable elastic portal.
