Product Details

Great all round Internal / External PVC that has sold to the market for many years

Range of 3 different face film finishes, Gloss, Satin and Matt

Good Longevity / Excellent stability

Matched Component for "DERFLEX" SAV Range.

Film Thickness: 80micron

Adhesive Thickness: 25 Micron Solvent Based Acrylic (Permanent)

Liner: 80gsm Single Sided PE Coated

Available Sizes: 1040 x 50m, 1300 x 50m, 1370 x 50m, 1400 x 50m, 1524 x 50m

External Longevity: Up to 3years

Monomeric UV Cold Film Specifications:

Product Information Construction - Monomeric PVC,

Acid Free Usage - PSA **Cold Laminating Film**

Thickness - 80-micron Adhesive - 25 microns Solvent based acrylic (permanent) pressure sensitive

Total Thickness - 105 microns

Liner Thickness - 80 gsm single sided PE coated paper

Outdoor Life - up to 3 years

Finishes available - Gloss, Satin & Matt

Cores - All on 76mm cores

Lamination Recommendation: Easy smooth application; Protect against abrasion, moisture and constant surface contact. For medium term, up to 2 years outdoor application (can vary depending on position and application)

Laminating Temperature: Cold or heat assist up to 50°C

Lamination Curing Time: Once the lamination is completed, it is recommended to lay the laminated print flat for 24 hours to allow the proper adhesive curing time prior to trimming or taking the laminated print for outdoor use.

Shelf Life: 1 year (stored up to 25°C and 50% relative humidity), in original packing of the box.

DER New Material is one of the leading China premium monomeric cold laminating film manufacturers and suppliers, with professional factory, we are able to produce high-quality premium monomeric cold laminating film at competitive price, and we can always offer you products for sale. Welcome to wholesale products from us.
