Product Details

Swimming pool cover is used for prevent the outdoor durt from polute the water of swimming pool, and to keep the water temprater

According to the raw material, swimming pool cover can be devided into 3 types:

- Bubble pool cover
- PVC tarpaulin pool cover
- XPE pool cover

Bubble pool cover

Raw material: LDPE with bubble layer

Product structure: aluminum (aluminum) + bubble + aluminum (aluminum)

Product weight: 200g / m2 ---- 600g / m2 (custom make)

Product standard size: width of 1.2 meters, length of 30 meters or 40 meters

Light reflectivity: 97%

Thermal conductivity: 0.0297w / m * k

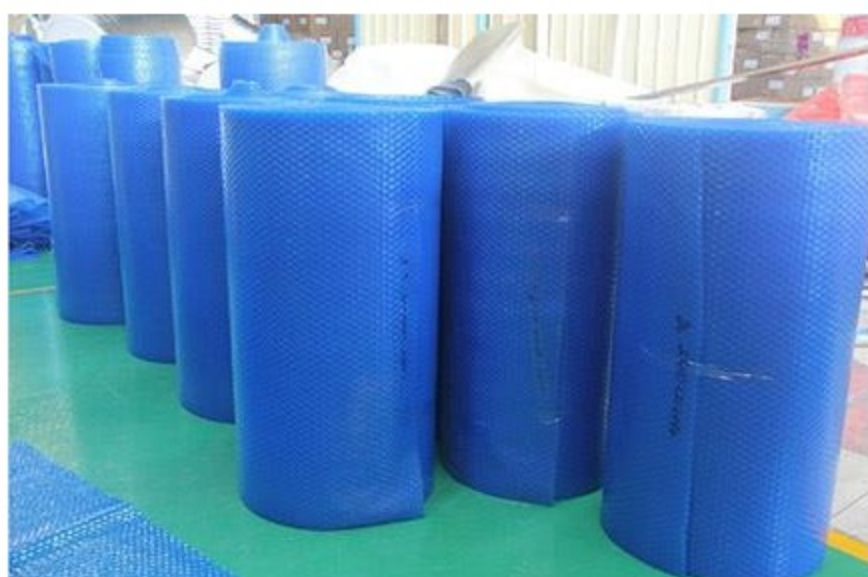

Working temperature: -40 degrees - 80 degrees

Regular size: 2.5M*50M, can be cutted into customized size

tensile strength: >260N/M

MOQ: 40 rolls

Production time: 20 workdays

Swimming Pool Covering Tarpaulin

Swimming Pool Covering Tarpaulin

PVC tarpaulin pool cover

Raw material: **PVC tarpaulin, PVC coated polyester fabric**

Regular color: blue, all color available

Fabric size: 1000D*1000D, 20*20, 15-18oz

Roll size: 3.2M*50M, can be cut to different size

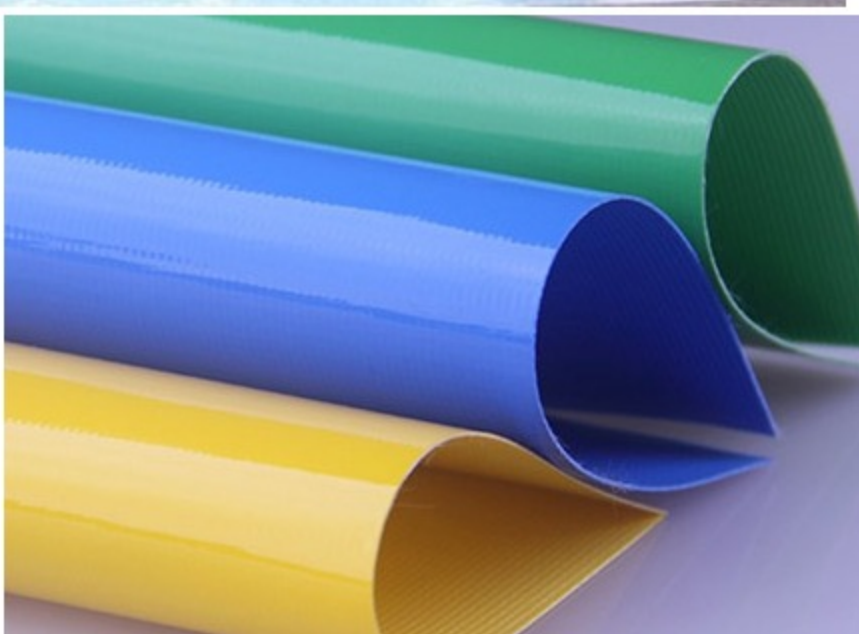

Thickness: 0.4mm, 0.5mm, 0.3mm

tensile strength: >2000N/5cm

temprature durance: -30-70 C

Swimming Pool Covering Tarpaulin

Swimming Pool Covering Tarpaulin

XPE pool cover

Raw material: Polyethylene foam + Polyethylene film

Regular color: blue, all color available

Roll size: 1.5M*50M, can be cut to different size

thickness: 3mm, 5mm, 8mm

Best heat preservation character, mostly used in Spa
